

ALX AICE: Milestone #1 Worksheet

22.04.2024

Tip: Review the [rubric for this milestone here](#). It will guide you in achieving a good passing score.

Step 1: AI Toolkit

Locate your own [copy of the AI Toolkit](#) from your activity on [Building Your AI Toolkit](#).

Next, Click "**Share**" (under the 3 dots) and adjust the settings so that it looks like this:

[Done](#)

Then, copy the link and paste it into the box below.

Step 1: Your AI Toolkit

https://docs.google.com/spreadsheets/d/1X25_-5JJxYO76s9wSI-UqTUcRzumh1b7g7t5WuUMk-c/edit

If you need more help with this, Google for video instructions on sharing files in Google Drive, or ask a peer.

Step 2: Reflection on the use of AI

Take some time to think about the things you have learned about AI and how it may impact your future. After that, write a brief paragraph that answers the questions in the box below.

To pass this part of your milestone, your reflection paragraph must answer all three questions. You can also write out the answers to each question in three separate sentences.

Step 2: Reflection on the use of AI

1. Which aspects of interacting with AI in your daily life are you most excited or concerned about?
2. In what ways do you think AI will impact your current or future career?
3. What are some of the ethical challenges posed by AI that you are most worried or curious about?

Reflection Paragraph here

In terms of interacting with AI in my daily life, I'm most excited about the convenience and efficiency it can bring. AI-powered virtual assistants like Google Assistant or Siri can help with tasks like setting reminders, finding information, or controlling smart devices, making life easier. However, I do have some concerns about privacy and data security when it comes to AI. As for its impact on my career, AI has the potential to automate certain tasks, which could free up time for more creative and strategic work. However, it may also lead to job displacement in certain industries. Ethically, I'm most worried about bias and fairness in AI algorithms, as they can perpetuate existing inequalities or discriminate against certain groups. It's crucial to ensure transparency, accountability, and ethical guidelines in AI development and deployment.

Please go back to Savanna and continue with your learning content. You will be prompted on when to return to complete Part B.

Step 3: Target industry & role reflection and PICS

Locate your [Personal Mission Statement Worksheet](#) in your personal ALX AICE Google Drive.

Make sure you have filled out the following in your personal mission statement worksheet:

Part 1: Reflection on Your Target Industry And Role

- *Industry Exploration*
- *Role Identification*
- *Writing Your Industry Focus Statement*

PART 2: Write down your PICS (You must state at least 2)

- *Passions: What would you get out of bed for in the morning if money wasn't an issue?*
- *Interests: What are you most curious about?*
- *Causes: What keeps you up at night?*
- *Strengths: What is your superhero power?*

Once you have confirmed that, click "Share" (under the 3 dots) and adjust the settings so that it looks like this:
